Hey Mary Beth. Just wanted to touch base with you regarding the Project Specific Programmatic Agreement (PSPA) that Megan has proposed for the FTF project. This was the instrument that Megan and SHiPO decided would be most appropriate for our project. However, I know you have also contracted a cultural resource person to work on this project. Did you still want us to move forward with the PSPA? Winter would be a good time for Megan to work on it. Just let us know or we can also discuss at the next stakeholder meeting. We are OK either way. If you think it would be better for your consultant to pick up from here, we will work to transition everything over. Whatever is best for the project.
